

Wellcome! This is

MD. AL- AMIN

UI/UX Designer (Graphic Designer)

Last 10 years I worked for some software companies which were foreign and local ownership. I was responsible for Application Design & Support Marketing Team Creative Team for develop content and publication to print media & digital media. I have serious passion for User interface/user expriance design with, animations and creating intuitive, dynamic user experiences.

GRAPHIC PEOPLE

Designer (Desktop Publisher)

graphicpeople

I have experience working with teams to **brainstorm and whiteboard concepts**. I can create **wireframes** at varying levels of fidelity, and enjoy prototyping ideas. I have some **front-end coding experience**. and enjoy working with devs to build ideas out. I have worked with distributed teams using version control systems (SVN, and Git). I know how to use **Google Suite** and **Jira**

Software that I'm familiar with:

Figma

Photoshop

Illustrator

Adobe XD

Balsamiq

Sketch

InDesign

After Effects

Notepad++

NetBeans

I have worked with many different prototyping tools and frameworks - to avoid a full laundry list above, I've kept it to just my favorites. If you use a different prototyping tool that works well in your established workflow, I would be happy to learn it.
